Objective

Computer Science student with hands-on experience in software development and AI. Eager to leverage my skills in programming and problem-solving through an internship position to gain real-world experience and contribute to impactful projects.

Education

University College Of Engineering, BIT-Campus- Bachelor of Computer science and Engineering, CGPA(current): 8.17 .

Experience

Open Source Contributor, GSoC 2024

Cyber Security Internship through AICTE

Projects :

AI powered Climate Change Predictor

Email System

Fraud Detection in Financial Transaction

Stock Price Prediction System

Chatbox for Citizens-Police,Health-care

Hospital Management System

Contributed to repositories , addressing issues, optimizing code, and adding new features.

Leadership & Extracurricular Activities

Led NCC in organizing events, improving organizational and team management skills.

Participated in Hacathon, gaining valuable teamwork and coding experience.

Skills

Programming Languages: Java, Python,C

Web Technologies: HTML, CSS, JavaScript,Reactjs

Databases: MYSQL,Mongodb

Core Knowledge: Data Structures & Algorithms, DBMS, Computer Networks, Object Oriented Software Engineering ,OOPS,Networking,Operating System.

Machine Learning &Deep Learning

Tools & Frameworks: React Native, Django,flask

Soft Skills: Well communication, leadership, problem-solving

Hobbies

Watching series, playing video games, riding a bike and contributing to open-source projects.
